

12 FEB 1963

MEMORANDUM FOR: Director of Central Intelligence

THROUGH : Deputy Director (Support) *15/ LKW* 13 FEB 1963

SUBJECT : Russian Agent Radio Equipment and Similar
CIA Equipment

1. This memorandum is for your information only.

2. Dr. Scoville relayed to me your request of 9 February for information on CIA equipment which is similar to Russian radio equipment pictured on page A5 of the Washington Post, dated 9 February 1963.

3. Several pieces of equipment have been developed by the Office of Communications which are somewhat similar to Russian agent radios which we know about. One of these is the [REDACTED] which you saw at [REDACTED] Field and subsequently in my office. It uses a coder-keyer combination and transmission is at the rate of [REDACTED]. We have also developed coder-keyer equipment which may be used with several of our Agency radio sets. The Russian radio set may be keyed at [REDACTED] which is comparable to our [REDACTED] equipment.

4. Our equipment, together with one of the Russian sets, is available in my office for examination.

25X1A [REDACTED]
Director of Communications
